ART Lab SkinChat

Product description

SkinChat is a revolutionary AI chatbot that provides personalised skincare solutions using advanced artificial intelligence technology from Korea. With SkinChat, users can scan their face to receive a comprehensive skin analysis and recommendations for the most suitable products to address their unique skincare needs. Therefore, beauty brands can benefit greatly from adding SkinChat to their website; It's smart, simple and effective and makes brands more reliable while increasing customer engagement and sales effectiveness.

Claims & Benefits

SkinChat's philosophy is that customers are not simply buying cosmetics, but rather solutions to their specific skin concerns. Since skincare is not a one-size-fits-all solution, we understand that misinformation can make it difficult for consumers to make informed choices. Our team of experts is dedicated to providing customers with an elevated experience that instils confidence in their purchasing decisions. By using SkinChat, beauty brands can offer their customers top-notch skincare advice and 24/7 assistance while gathering invaluable customer data. With SkinChat, customers can rest assured that they are receiving expert guidance and the best possible solutions for their skin.

CCA
Syzygium formosum leaf extract

Medicinal plants that live only in tropical regions full of vitality
It is rich in phytochemicals that are higher than *Centella Asiatica*
so it has excellent skin soothing, regenerating, and anti-inflammatory effects.

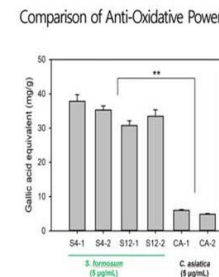

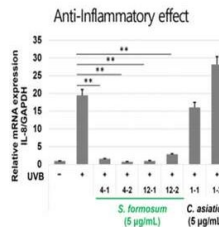

We continue to research changes in active ingredients depending on the harvest time and collection site of Syzygium leaves to ensure that the active ingredients are consistently added to our products at high concentrations.

Efficacy

- + 4 times higher the skin soothing active ingredient
 - + 3 times higher asiatic acid for skin damage improving
 - + 3 times stronger an-inflammatory
 - + 8 times stronger antioxidant power
- than CCA

Property

- + Obtained Nagoya Protocol license for commercial use for the first time in Korea
- + Antibacterial/anti-atopic patent
- + The world's first international cosmetics raw material collection (CID registration)
- + Published three papers in international famous journals (SCI level)

2023 Winner

MITI Systems Inc

IntoDerma Hyaluron Micro Crystal
Essence

Product description

- An innovative two-step skin care treatment that is an oil essence containing soluble hyaluronic acid micro crystals. When you add serum, the micro crystals instantly dissolve and are absorbed deep into the skin.
- Realization of general MTS treatment effect without pain -
- Whitening, Wrinkles around the eyes, improvement of skin density, skin moisturizing effect
- Convenient and safe use at a professional skin clinic or at home
- Features of micro crystal
- Micro-sized angular crystals made of low-molecular-weight hyaluronic acid
- Mixed in an oil-based formulation, it destroys the skin

barrier and delivers active ingredients such as oligo/polypeptides.

Claims & Benefits

Hyaluronic micro acid crystals form micro-channels in the skin, and the effective ingredients of the serum dissolve the hyaluronic acid crystals and improve the absorption effect along with the active ingredients. It provides a double layer of inner and outer moisturizing care to keep dry skin healthy and dense. Low-molecular-weight hyaluronic acid fills the skin barrier firmly and maintains moisturization for a long time. It has skin elasticity, improvement of wrinkle and skin density, skin radiance, skin barrier strengthening, skin moisturizing, and skin soothing effects.

Pontika Aerotech Limited Hair Removal Spray

Product description

Introducing our Hair Removal Spray with BoV Technology – a safe, eco-friendly solution for quick and pain-free hair removal. Preservatives-free with a longer shelf life, it's perfect for dispensing various materials, including oxygen-sensitive products. This innovative spray ensures an even application at all angles, maintaining product integrity. Fortified with Ylang Ylang oil, Sandalwood oil, Vitamin E, and Aloe Vera, it restores the skin's original complexion, leaving it smooth and supple. Ideal for arms, legs, chest, bikini, and underarms, it provides a lasting, clean shave while effectively removing the shortest hair. Ozone-friendly and CFC-free, it's your go-to for a convenient, eco-conscious hair

removal experience.

Claims & Benefits

Experience effortless and pain-free hair removal with our Hair Removal Spray featuring BoV Technology. This eco-friendly solution, free from preservatives, ensures a longer shelf life. Fortified with Ylang Ylang oil, Sandalwood oil, Vitamin E, and Aloe Vera, it not only removes unwanted hair but also restores your skin's original complexion, leaving it smooth and supple. Enjoy the convenience of a clean shave that lasts longer than traditional methods. With an advantage of 360-degree even spray, this product maintains skin moisture, making it ideal for arms, legs, chest, bikini, and underarms. Embrace effective hair removal with our ozone-friendly, CFC-free formula.

PASTE PLASTER Peel Off Pimple

Claims & Benefits

Clean – vegan friendly – 83% natural origin ingredients.

Product description

A unique gel texture that incorporates a BLEND OF HYDROCOLLOIDS that not only contribute to the gel's viscosity but also create a film on the skin's surface. At the heart of Paste Plaster lies a special form of SULFUR COATED WITH ACACIA GUM. This potent combination works diligently to REDUCE REDNESS AND CONTROL SEBUM PRODUCTION, all while ensure your skin remains nourished and free from dryness and flaking. The NIACINAMIDE takes the lead in stimulating the production of ceramides and skin barrier proteins.

**MAKE UP, SKIN CARE, HAIR
FORMULA**

2023 Winner

ITALCOSMETICI SRL Bouncy Bubble Blush

Product description

A soft and elastic texture that bounces with your fingers, highly pigmented and extremely sliding on your cheeks. Its bouncy nature obtained through a specific jellification of the water phase makes this product innovative, irresistible and unique. This hybrid texture not only provides a buildable and intense mat finish that lasts all day, but it also works as a caring treatment thanks to its active ingredients: PEONY ROOT EXTRACT and JALURONIC ACID antiaging, CENTELLA ASIATICA EXTRACT smoothing and elasticity, Myrciaria Dubia Fruit Extract (and) Aureobasidium Pullulans Ferment

Extract (and) Glycerin antipollution, wrinkle minimizers, antioxidant and anti-inflammatory.

Claims & Benefits

Bouncy Bubble Blush keeps up with the latest make up trends that require a healthy and bonne mine final look and promote blush in every “shape” and “shade”. The innovation stands with its jelly mousse and unique texture: you will live a sensorial experience by just touching it, your finger will bounce and bounce and then you will be surprised by its fresh and sliding application; in the end you will be amazed by the final shade on your cheeks. The active ingredients at functional percentage make this hybrid texture an ally for your skin.

FORMULA**

2023 Winner

Pontika Aerotech Limited 5 in 1 Acne Control formula

Product description

Discover Pontika Aerotech's 5-in-1 Acne Control Formula, a premium daily facial care essential for oily, acne-prone skin. Revel in the glamorous matte finish, sustained oil control, and dual skin brightening effects. This gentle yet potent solution targets all biological aspects while ensuring a refreshing and light sensory experience. Cost-effective and devoid of SVHC, parabens, silicone, and mineral oil, it embodies a commitment to safety. Elevate your skincare routine with this daily application marvel, delivering efficacy and a cool, luxurious touch. Pontika Aerotech invites you to indulge in a new standard of radiant, blemish-free skin.

Claims & Benefits

Pontika Aerotech's 5-in-1 Acne Control Formula delivers a transformative skincare experience with five key benefits. Firstly, it ensures strong biological efficacy for acne control, targeting hyperkeratinization, excessive sebum production, bacterium colonization, and inflammatory responses. Secondly, revel in an instant cooling sensation and a glamorous matte effect. Thirdly, experience immediate and progressive oil control. Fourthly, enjoy both instant and ongoing skin brightening. Lastly, savor moisturized skin for a minimum of 6 hours post-application. This formula is a powerhouse, offering a comprehensive solution for acne-prone skin while providing immediate and lasting results for a radiant and nourished complexion.

**MAKE UP, SKIN CARE, HAIR
FORMULA**

2023 Winner

Regi India Cosmetics PVT. LTD.
Apple Bite

Product description

A revolutionary approach in the lip balm segment. In one swipe your lips will be drenched with a super cooling sensation, a luscious finish and charming scent just like you're taking a bite out of a juicy green apple! This revolutionary stick combines the gesture of a lip balm with the hydrating sensation of a cream or serum thanks to an exclusive EmulStick Tech that allows to pack an emulsion made by 51% green apple juice, into a stick. After application lips are fuller, softer and intensely hydrated with a touch of color and a hint of shine.

Claims & Benefits

The formula is a hydrating powerhouse: 5% Glycerin serves as lip hydrator, 2% Phytosterols restores lips and lip contour. 51% Green Apple Juice accelerates the cell proliferation for an energizing effect. It's extracted through a sustainable process to preserve all the essential oils contained within the fruit. The holistic approach to the formula makes this product addictive to all senses. The unexpected cooling application and the nourishing sensoriality combine with the Green Apple scent and Super-sugary taste to deliver a unique product experience. The formula is vegan and clean. Made with 90% natural origin ingredients, it features an eco-friendly and 85% PCR packaging.

Albea

EcoFusion Top with Metamorphosis

Product description

Reaching high attractiveness thanks to its paper look & feel, Albéa's solution is the combination of 2 innovations to lower the impact of the packaging. Albéa's EcoFusion Top combined with metamorphosis paper-based web unrivals a new solution towards weight reduction and lowering the carbon footprint. EcoFusion Top is the most advanced solution in reducing the weight of the dispensing system thanks to the fusion of tube head and cap, leading to a 2 components' tube instead of 3. The two-in-one solution allows more than 80% weight reduction compared to standard head+cap solutions. Combined with

Metamorphosis, paper-based laminate web, the tube solution reaches 50% paper content and 45% carbon footprint reduction compared to standard extruded tubes in diameter 50 for a 200ml content.

Claims & Benefits

1) High shelf attractiveness thanks to a very disruptive tube 2) Great look & feel of paper 3) Replacing plastic by paper 4) Lower the carbon footprint to achieve sustainability goals 5) EcoFusion Top is Ista-6 Amazon compliant for e-commerce use
